## SIX WAYS TO YOUR BOAT!

Give your boat some tender  loving care this Valentine's Day! True love requires an investment, spending time, energy and the giving of your heart. Think of what you love, what you really love to spend your time and energy doing, and who you like to do it with. That's right, she is the best there is! She has been with you through rain and sunshine, early morning sunrises, beautiful sunsets and gotten you docked during a storm. Why not get the professionals to bring her back to her best?

### 1. Lavish Her In Bubbles...

Do yourself a favor and contact our Service Department to have your boat detailed. Start with full internal and external service and then sign up her up for regular bi-weekly cleans.

### 2. Dress Her Up...

Give her some flair with new upholstery/canvas.

### 3. Make Her Shine Like a Diamond...

Change your aging lights for new, lower voltage models. Add underwater lights to your transom in whatever color she may fancy.

### 4. Give Her A New Gadget...

It really doesn't matter what kind of electronic device you choose to fit - a depth sounder, a chart plotter, a VHF radio, a RADAR, an AIS unit, a fish finder, touchscreen interface...whether modest or magnificent, it all represents a feel-good.

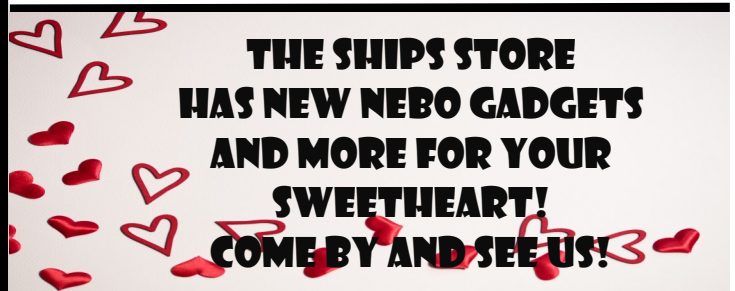

### 5. Deck Her Out...

Nothing says love like upgrading traditional teak, artificial timber laminates, or seadek. Whatever you choose, the rewards can be magnificent.

### 6. Maintain Your Love...

Renew your commitment to love and honor her by making sure you give her the maintenance she needs. Change her oil, filters, fuel filters and water pump impeller. And if it's been awhile take her out for a bottom job or spruce her up with a compound and wax.
